MAT 120: Introduction to Statistics

Larkspur Community College - Mathematics - Instructor: Prof. Devon Okafor

1. Grading

Grades are weighted as follows: homework 20%, midterm exam one 25%, midterm exam two 25%, and the cumulative final exam 30%.

The lowest homework score is dropped before the homework average is computed.

2. Late Work

Homework may be turned in up to 48 hours after the deadline for a flat penalty of 15% of the score. Homework more than 48 hours late is not accepted. Exams cannot be made up without a documented emergency.

3. Office Hours

Prof. Okafor holds office hours on Mondays and Wednesdays from 10:00 am to 11:30 am in the Math Lab (Building C, room 108).

4. Prerequisites

MAT 095 (Intermediate Algebra) with a grade of C or better is required. There is no placement-test alternative for this course.

Fictional document generated for demonstration purposes.
